

PRODUCT INFORMATION SHEET

A **All in one Street light** is a raised source of light used to illuminate streets and their surrounding area.

TECHNICAL SPECIFICATION

- **Model : AXNAL-20**
- Wattage : 20W
- **PIR Sensor : Yes**
- **W- LED : 160 lm – 180 lm**
- Luminaire Efficacy : As per Specification
- Operating Voltage : As per Specification
- CCT : 6000K – 6500K
- Working temp.: -20°C to +65°C
- **Solar Panel : 40W (Mono)**
- **PIR Sensor : Yes**
- **IP65 : Yes**
- **Dusk to Dawn: Yes**
- Charge Controller: PWM
- **BATTERY : 18Ah LiFePO₄ Battery**
- Net Weight : 12-15 Kg
- **Optical Cover : High Performance LEDil Lens**
- Life : 50000 Hrs

FEATURE

- High Efficacy LED Chip
- Customized & Designed by high Professional
- Reduced maintenance, low initial and operating cost.
- Easy to install without opening the luminaire.

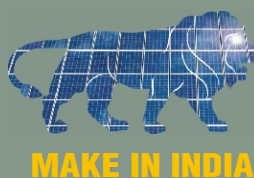

AXXON LED Lights are a smart innovation in the future of lighting. They provide simple and lasting lighting solution to the user.

Every LED Light made by AXXON is crafted to meet Global standards. AXXON lights are superior quality.

- ✓ **All products are CE/ROHS/NABL/MNRE Certified**
- ✓ **BIS Approved.**

The especially in-built PIR sensors allow the **AXXON All-in-One** to sense motion. In other words, if a human is within sensor range, then it is at 100% full power lighting mode. Otherwise, to save energy, it dims down to 30% power lighting.
